the Industry

*"When it is all said  
and done, no matter  
how much marketing  
you do, it always  
comes down to the  
customers guilt of  
starring at a lube  
sticker that is over the  
recommended oil  
change interval. Why  
would you ever make  
it difficult for a cus-  
tomer to read the  
guilt."*

- Stickers **will not curl or peel.**
- **UV Protected** to prevent fading

## From Professionals in the Industry

*"Printed stickers look professional. They are legible and accurate showing such items as date, mileage, and type of oil used."*  
JF

## From Professionals in the Industry

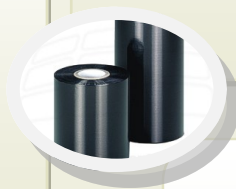

*"We've found that printed stickers also hold up better to sun fading. Very important during California summers when people are extending their drain intervals."*  
JD

## Smart Printer

**Stand alone:** No need for a computer or specialized keyboard.

**Easy to read** LED screen

**User Friendly:** Easy to operate

## Ribbons

This ribbon is particularly remarkable for its **good resistance to smudge.**

The quality of the back coating gives **excellent protection** to the print head. One ribbon will print about **2000** stickers!
